

Debt Thermometer

Color in the tube as your total debt falls. Every mark is ten percent of the way there.

HOW IT WORKS

Write your total debt in the bulb. Every mark up the side is ten percent of that total paid off. Each time you make a payment, color the tube up to the amount you have paid so far.

Keep it where you will see it every day. The goal is not to fill the tube fast; it is to never let it sit still.

DEBT-FREE GOAL

Add up every balance you owe for the goal number. Not sure what you owe? The free debt tracker printable from undebt.it is the page for that.
